Relevant Project Experience (Sample)

Key Project

Bank of Scotland (HBOS/LloydsTSB) - Berlin

Hired by the group CTO and acting as a Lead Solution / Enterprise Architect & Interim Manager on an exciting expansion project for an online banking platform designed in Europe for Japan - managed a team of 5 and was considered a work stream leader on a multi-stream project. Responsible for the enterprise architecture (TOGAF) and for the end to end project documentation for a strategic approval committee. Third party vendor management as well as stakeholder and senior project management were the key skills.

Key Project

BaFIN – Frankfurt (German Equivalent of UK FSA)

Federal Financial Supervisory Authority (same as UK FSA) – working on a large scale securities reporting system for CESR (Committee of European Securities Regulators) – As Senior PM managing a team of developers & QA on an IBM DB2 Warehousing platform (Websphere, AIX, SQW, ETL, etc.) for reporting nationwide security transactions to the EU – this entailed large scale data transformation (XML) and transport – with complex DB processes & controls. Managed a team of developers & solution architects and workstreams.

Key Project

Wincor Nixdorf International – Paderborn

Working directly for the CISO (Chief Information Security Officer) under the CIO on a PCI-DSS related project implementing a SIEM solution (ArcSight), in addition to establishing company-wide configuration standards and operating manuals based on Sharepoint - technologies like VMware, Linux/Unix, FW, IDS, Vuln-scans, NetAPP, Windows Server products and Datacenter (cloud) technologies.

Other Notable Projects:

- Deutsche Bank – Lead Cyber Security Manager – Global Outsourcing Transformation (HP & IBM)
- HP / Portigon Financial – Global Transformation / DC Consolidation / Greenfield Private Cloud
- ComDirect Bank –Data Centre Migration
- Bankhaus Wölbern – Entire Bank Relocation
- Nordea Bank – DC Consolidation Project
- HRE / Pfand Brief Bank – Liquidity Risk Mgmt Software
- Berliner VolksBank – Board Level Report / Infrastructure Project
- Zurich Financial Services – 2nd Gen. Outsourcing Transition & Transformation
- RWE Trading - “Best in Class” - LEAN IT Projekt
